THE PUTMAN

Have an entire floor all to yourself with a luxurious stay at The Putman. Adding high style to the skyline of Hong Kong's glitzy Central District, the boutique hotel apartment was inspired and conceptualised by acclaimed visionary Andrée Putman, whose contemporary designs have impressed the likes of Veuve Clicquot and Louis Vuitton.

Choose from 28 lavish guest rooms, all enjoying vibrant city or harbour views as framed by floor-to-ceiling windows. Each of the full-floor, 120 sqm one-bedroom suites are awash with soothing hues, creating a sophisticated vibe with handpicked Putman furnishings, including her famous Crescent Moon sofa. For maximum effect, the built-in electronic lighting system allows you to set the mood with a touch of a button. In the bedroom, the Simmons mattress dressed in 300-thread count linens will cradle you to deep slumber while the Villeroy & Boch standalone tub in the bathroom promises long, luxurious baths. In times when you feel like skipping the hip restaurants dotting the prestigious neighbourhood, your suite's well-stocked kitchen is ideal for whipping up delectable meals and entertaining guests. Spacious closet space, LCD TVs and L'Occitane toiletries are a few of other fine amenities provided in your magnificent suite in true Andrée Putman fashion.

Don't let its straightforward and masculine aesthetic fool you, The Jervois does not only showcase sleek interiors custom-designed by the internationally known Christian Liaigre, but also offers warmth and comfort in the form of Italian bed spreads, plump pillows and duvets as well as top-quality rain showers. Enter your sun-drenched one or two-bedroom space through a private lift lobby and take notice of the intriguing textures of wood, leather and glass in interesting treatments. Curl up in your Simmons mattress over a movie through the Philips DVD system or get refreshed in the spacious marble bathroom when you're not busy exploring the antique stores and modern art galleries scattered around the area. Once your to-do list is accomplished with the help of housekeeping services and business centre features, it's time for a party at the sun deck with high-end barbecue facilities.

With simple yet precise details, The Jervois is a fine blend of function and style giving basic a new definition.
